

# Solving garden problems:

## *Identifying diseases & disorders*

Expert advice

July 16, 2025

1:30pm until  
3:30pm

Part two in a three-part series

Conducted by Sara Rutherford, Extension agent

## Program Location

Greensville/Emporia Extension Office

Do you ever wonder what's wrong with your plants? Would you like to learn how to identify common and lesser-known diseases and disorders of trees, flowering plants, fruits or vegetables? Would you like recommendations for controlling those diseases? If so, this educational program is for you! Join us for part two in our series to learn how to identify general plant diseases and get recommendations for the best control methods. Join us in August to learn how to identify insects.

To register, please call 434-348-4223 by July 11, 2025. This is a free class and space is limited. For more information about this program, contact Sara Rutherford, [srutherford@vt.edu](mailto:srutherford@vt.edu).

Virginia Cooperative Extension is a partnership of Virginia Tech, Virginia State

University, the U.S. Department of Agriculture, and local governments. Its programs and employment are open to all, regardless of age, color, disability, sex (including pregnancy), gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, military status, or any other basis protected by law.
